ABOUT GREENLAND

Greenland, the world's largest island, is a realm of untamed beauty and spectacular landscapes. Located in the Arctic, it is a vast and untouched territory, covered by immense glaciers, majestic fjords, and towering mountains.

Its vast spaces offer an unparalleled sense of isolation and serenity. Greenland's Arctic climate has shaped a breathtaking landscape, **with giant icebergs floating in crystal-clear waters and endless expanses of ice and snow.** It is home to rich wildlife, including whales, seals, reindeer, and a variety of seabirds, inhabiting the icy waters and barren lands.

Beyond its natural beauty, Greenland boasts a rich and vibrant culture rooted in the traditions of the Inuit people. **Their communities preserve a traditional way of life, honoring ancestral practices and local craftsmanship, such as the famous Inuit amulets.**

It is a place where nature reigns supremely, offering visitors the opportunity to witness the grandeur of the Arctic and connect with an environment that is both challenging and profoundly inspiring.

A Sacred Portal that activates our awareness of collaboration, internal purity, alignment with the Eternal (life and death as a transformative and meaningful passage), as well as the teachings of a culture that preserves simplicity and family.

In 2019, Marcia decided to travel to **Greenland** to produce/direct an exclusive documentary for her Project about the Sacred Portals of the World, where she studied the Inuit Culture and how they can connect their ancestral wisdom with our modern world, helping us to expand consciousness and awareness of traveling to this places as an important experience of self-development.

Marcia interviewed one of the leaders of the community - Angaangaq Angakkorsuaq (Ice Wisdom Project), and some locals to understand the culture and meaningful practices preserved until today. She visited some sacred portals and connected with the essence of the place developing the documentary "Inuits | The Heart of Greenland".

Inspired by this journey, **Marcia and Amana Jornadas are together creating this amazing and exclusive Expedition to Greenland in July 2024** with the core essence of activating this Portal inside of each person who is going with us. It will be a remarkable and transformative experience combining the beautiful views of the Artic, the special wisdom from the Inuit Culture, Meditation, and Classes about the Portal guided by Marcia, incredible gatherings with local people and leaders.
